

These are the photographic highlights from the YouTube video for waistband and ties which can be found [here](#) It is designed as a quick reference after you've watched the video

	<p>Finish crotch seam –trap tape</p>
<p>Sew down waistband remembering to leave 3 - 4 inches at each end (enough to allow you to sew crotch seam later)</p>	
	<p>Leave spaces for waist ties, narrower than the width of the tape</p>
<p>Sew back crotch with regular seam</p>	

And press open

Sew up the gap in the waist channel either side of the back seam

Neat!

Cut ties, fold end over twice, stitch a box
